Deeper Tanzania: Northern Migration

DAY-BY-DAY ITINERARY

Safari in style with private guide

In the cool morning air,
just after the sun rises,
the savannas of northern
Tanzania come alive.

It's the quintessential Tanzanian safari taken up a few notches. View the world famous Northern Circuit's three great national parks. Begin in Tarangire National Park, known as the place of elephants. Make your way through the Ngorongoro Crater, home to countless species and colorful cultures. Conclude in the majestic Serengeti where big cats are king and wildebeest roam the open plains. Feel the pulse of the wilderness, while remaining comfortable in stylish camps and lodges.

Welcome to Deeper Africa

Wildlife encounters, at once spontaneous and beyond imagination, result from our in-depth knowledge of seasonal wildlife migrations and patterns. Our guides possess a lifetime of African lore and all the skills of a master tracker. *It's being in the perfect place at the perfect time.*

DAY 1

Machweo Retreat Arusha

Upon clearing customs at Kilimanjaro International Airport, a driver will greet you, holding a Deeper Africa sign with your name on it. On the drive to Arusha, if the weather is right, you may catch a glimpse of the legendary Mount Kilimanjaro.

The gorgeous Machweo is renowned for its stylish accommodations and haute cuisine. The kitchen serves as a training ground for local, at-risk Tanzanian youth, who learn skills inside and out of the kitchen to thrive as independent adults. After completing chef Axel Janssen's program, students have the ability to be chefs at top establishments in the safari industry.

Includes: Wi-fi, Private guide & private vehicle

DAYS 2 & 3

Little Oliver's Camp Tarangire National Park

After breakfast, drive into the wilds of Tarangire National Park. Search for wildlife, have a picnic lunch and head toward Little Oliver's Camp in the unspoiled southern wilderness far from other lodges or camps.

Tarangire boasts one of the largest and most conspicuous elephant populations in East Africa. Observe their unique behavior along the Tarangire River where many close-knit elephant families come together. The big cats, particularly lions and leopards love the rolling savanna here as well.

At the end of the day, enjoy a wonderful safari tradition: sundowners (drinks at sundown). Being so close to the equator, sunsets are quick and brilliant.

Dry plains rapidly turn to lush coffee plantations and tropical vegetation on the drive from Tarangire to Ngorongoro Crater Conservation Area.

Head into the Crater early as dawn brings a wave of activity in the natural world. Welcome to an astonishing microcosm of East African wildlife environments: grasslands, wetlands, acacia forest and a soda lake. At the right time of day, flocks of flamingoes wade into the soda lake to feed. Zebra, wildebeest, giraffe and gazelle

mingle on the savanna and buffaloes graze in the long grass. It's not uncommon to see lions and possibly a first cheetah sighting in the Crater, on this "mini" savanna.

Only Maasai people are allowed to live in the Ngorongoro Conservation Area and upon entering, notice the Maasai *enkangs* or "homesteads." With special tribal land rights, they live a pastoral life and coexist with the animals.

Set off in the Land Cruiser with your guide for the eastern Serengeti and the Namiri Plains. This section of the Serengeti has been closed to the world for more than 20 years. The Frankfurt Zoological Society has been tending this area, working to create a safe haven for cheetah. The Ngare Nanyukie underground river creates pockets of permanent water that support year round concentrations of wildlife. That means easy prey available throughout the year. Frankfurt has built on that permanent water source and their efforts have not

only significantly increased habitat for cheetah, but for all predators. This is big cat country with the highest density of cheetah in East Africa, who fly across the plains in pursuit of prey. Leopards hunt beyond the sight of human eyes and lions rule the grasslands. The little cats, including caracals, servals, and African wild cats, also make their presence known.

Namiri means “big cats” in Swahili—the perfect name for this beautiful region of the Serengeti.

DAYS 8 & 9

Sayari Camp

Serengeti National Park

Moving north, enter the land of the famous Serengeti migration. This protected area is one of the world's largest wildlife refuges, and covers territory in both Tanzania and Kenya. The herds gather on the Tanzanian side of the ecosystem from approximately November/December through early July for their epic march stretching more than a thousand miles.

The migration is most known for its vast herds of wildebeest, zebras and Thomson's gazelle. Wildebeest

harvest the highly nutritious, short grasses covering the semi-arid plains. As the herds stampede out across the plains, witness the greatest wildlife show on the planet.

Tanzania People & Wildlife

Tarangire & Serengeti National Parks, Tanzania

Proceeds
from your safari go to Tanzania People & Wildlife.

Tanzania People & Wildlife empowers communities to manage and benefit from their natural resources, to improve the lives of rural Africans and protect wildlife.

Tanzania People & Wildlife reduces human/wildlife conflict by working with locals to build Living Walls—corrals that protect livestock from wild predators. They also dispatch the rapid-response Warriors for Wildlife team that manages conflict incidents in 20 northern Tanzanian communities. They monitor & track wildlife, collect & analyze data and work with the community. This has led to substantial decreases in poaching and illegal charcoal production and saves approximately 150 lions each year. Small grants help locals lead their

own conservation initiatives. Student programs, such as wildlife clubs and environmental summer camps, educate young people on conservation and community stewardship. The highest-achieving students receive full scholarships to private secondary schools. Tanzanian People & Wildlife's Our Women's Beekeeping Initiative is a microfinance opportunity for women entrepreneurs to run an eco-friendly honey business and a 100% community-owned campsite provides revenue from sustainable wildlife tourism.

Each night you stay at Little Oliver's & Sayari Camp supports Tanzania People & Wildlife with a per person contribution.

DEEPER TANZANIA: NORTHERN MIGRATION

DAY 10

Machweo Retreat Arusha

After breakfast, journey back to Arusha. Enjoy lunch at Arusha Coffee Lodge and visit the Shanga Project, a crafts cooperative that employs disabled Tanzanians as artisans and craftmakers. Using recycled materials to make high-quality items provides these artists an opportunity to contribute economically to their families.

Shop or sightsee for the rest of afternoon in Arusha. Repack, shower and relax in a day room at Machweo Retreat. A Deeper Africa driver will take you to Kilimanjaro International Airport for your flight.
