DAY-BY-DAY ITINERARY

Safari in style with private guide

If only traveling to this amazing continent once, visit the traditional safari lands of East Africa. This region, along the border of Tanzania and Kenya, is but one land to the herds migrating across it. Combine wildlife viewing with outdoor activities and upscale luxury with adventure. Begin in Tanzania's most beautiful locations on the Northern Circuit—home to the tree climbing lions of Lake Manyara, the “Big Five” in the Ngorongoro Crater and the majestic elephants of Tarangire. Cross the border into Kenya's wide-open expanses of the Chyulu Hills and Campi ya Kanzi, a recognized leader in community development tourism. Conclude your journey on the sprawling savannas of the Maasai Mara, where the migration takes center stage.

Welcome to Deeper Africa

Wildlife encounters, at once spontaneous and beyond imagination, result from our in-depth knowledge of seasonal wildlife migrations and patterns. Our guides possess a lifetime of African lore and all the skills of a master tracker. *It's being in the perfect place at the perfect time.*

As a worldwide team with vast experience, we provide you with exceptional personal service. We attend to every detail. We help you learn about Africa's important conservation issues. *Arrive in Africa fully prepared and ready to explore.*

We believe that local African communities must benefit and prosper from the conservation and enjoyment of Africa's wildlife. They ensure the future. Your dollars protect wildlife and wild lands, as well as support and nurture local small businesses that in turn support our safari business. *Your dollar makes change.*

Experience wondrous wildlife, enjoy local culture and discover more about the vibrant people and complicated politics unique to Africa. *We love this wild continent.*

DAY 1

Machweo Retreat Arusha

Upon clearing customs at Kilimanjaro International Airport, a driver will greet you, holding a Deeper Africa sign with your name on it. On the drive to Arusha, if the weather is right, you may catch a glimpse of the legendary Mount Kilimanjaro.

The gorgeous Machweo is renowned for its stylish accommodations and haute cuisine. The kitchen serves as a training ground for local, at-risk Tanzanian youth, who learn skills inside and out of the kitchen to thrive as independent adults. After completing chef Axel Janssen's program, students have the ability to be chefs at top establishments in the safari industry.

Includes: Wi-fi, Private guide & private vehicle

DAYS 2 & 3

The Highlands Ngorongoro Conservation Area

Begin in lush Lake Manyara National Park, set against the Rift Valley and boasting over 380 recorded bird species as well as rare tree-climbing lions. This ecosystem showcases an astonishing microcosm of East African wildlife environments: including acacia woodland, grasslands, swamp delta and an expansive soda lake.

Head to the Ngorongoro Crater Conservation Area. Ngorongoro is an extinct volcano. Flora thrives in volcanic soil. The top (7,500 ft) boasts a once in a lifetime view into the caldera with some of the best wildlife viewing in East Africa. Head into the Crater early as dawn brings a wave of activity into the natural world.

Only Maasai people may live in the Ngorongoro Conservation Area. The Highlands, designed to mirror Maasai homes and staffed entirely by local people, provides authentic interactions with the local Maasai people. Visit a village. Meet warriors and families. Tour a home as cattle and sheep come in for pasture.

DAYS 4-6

Oliver's Camp Tarangire National Park

Head south into the wilds of Tarangire National Park, home to one of the largest elephant populations in East Africa. Many close-knit elephant families— matriarchs, babies, teenagers and bulls, come together along the Tarangire River. Feel their deep emotional bonds. Big cats love the rolling savanna here too.

Remote Oliver's Camp is in an unspoiled wilderness far from other lodges and camps. Close to the stunning, rarely visited Silale Swamps, the area hosts both lesser and greater kudu—seldom seen in the rest of northern Tanzania. Incredibly diverse habitats, not seen anywhere else on the northern circuit, range from grassland and

woods in the north to low hills, scrub and wetlands in the south. Southern Tarangire, a birder's paradise, hosts 550 recorded bird species.

At the end of the day, enjoy a wonderful safari tradition: sundowners (drinks at sundown). Being so close to the equator, sunsets are quick and brilliant. The dark silhouettes of towering, ancient baobab trees come alive against the background of the fiery African sky.

Tanzania People & Wildlife

Ngorongoro Conservation Area &
Tarangire National Park, Tanzania

Proceeds

from your safari go to Tanzania People & Wildlife.

Tanzania People & Wildlife empowers communities to manage and benefit from their natural resources, to improve the lives of rural Africans and protect wildlife.

Tanzania People & Wildlife reduces human/wildlife conflict by working with locals to build Living Walls—corrals that protect livestock from wild predators. They also dispatch the rapid-response Warriors for Wildlife team that manages conflict incidents in 20 northern Tanzanian communities. They monitor & track wildlife, collect & analyze data and work with the community. This has led to substantial decreases in poaching and illegal charcoal production and saves approximately 150 lions each year. Small grants help locals lead their

own conservation initiatives. Student programs, such as wildlife clubs and environmental summer camps, educate young people on conservation and community stewardship. The highest-achieving students receive full scholarships to private secondary schools. Tanzanian People & Wildlife's Our Women's Beekeeping Initiative is a microfinance opportunity for women entrepreneurs to run an eco-friendly honey business, and a 100% community-owned campsite provides revenue from sustainable wildlife tourism.

Each night you stay at Oliver's and The Highlands supports Tanzania People & Wildlife with a per person contribution.

DAYS 7-9

CAMPI YA KANZI | CHYULU HILLS TRIBAL LAND

KENYA & TANZANIA

©Campi Ya Kanzi

DAYS 7-9

Campi Ya Kanzi Chyulu Hills Tribal Land

After breakfast, cross the Kenyan border to the Namanga bush strip. Fly to the Chyulu Hills and Campi Ya Kanzi, winner of the 2015 Positive Luxury Award, 2014 Global Ecosphere Retreat, 2008 Condé Nast World Savers Award and many more ecotourism awards. The Chyulu Hills offers incredibly diverse ecosystems—mountain, forest, grasslands, green river woodlands, bush and savanna. About 63 different mammals and 400 bird species are found on the ranch.

Campi ya Kanzi is part of a unique partnership with the Maasai tribal council of the Kuku Group Ranch—280,000 acres of land in the Chyulu Hills. The Maasai have participated in all stages of the camp's development including construction and operations management. The camp, built with local materials, organically grows vegetables and recycles water through lava filters to supply a waterhole for wildlife.

Campi Ya Kanzi visit

Chyulu Hills, Kenya

Proceeds

from your visit to Campi ya Kanzi goes to the
Maasai Wilderness Conservation Trust.

Campi Ya Kanzi is dedicated to assisting the Maasai in preserving their wildlife and cultural heritage. Tourist dollars are used by the local community to support a primary school and a medical clinic for the local community. They also support a program called **Wildlife Pays** that provides compensation to tribal people who have lost livestock to lion predation.

“They have totally moved beyond the old idea that used to be the under pinning of the environmental movement—put a line around the best places and protect them from the people.”

—Actor Edward Norton,
Board member of the Campi ya Kanzi
Maasai Wilderness Conservation Trust

DAYS 10-12

Il Moran

Maasai Mara Game Reserve

One of Africa's most legendary national parks, the Maasai Mara is in the northernmost triangle of the Serengeti ecosystem. Extending more than five thousand square miles south into Tanzania, it's one of the world's largest wildlife refuges. During the annual great wildebeest migration, an estimated 1.25 million animals follow seasonal rains into the Mara from Tanzania and back, migrating as many as 300 miles per year.

Il Moran offers the closest possible vantage point to see the herds thunder across the waters as they make their way north every August through October. River crossings are treacherous with perilous obstacles—swift

currents, steep banks and hungry crocodiles.

The Mara has superb wildlife viewing outside of migration season as well and the variety of ecosystems here is perfect for honing tracking and spotting skills. Spot the local big cats and shadow a Kenya Wildlife Trust researcher to learn about conservation strategies being implemented to protect them.
